

COMPANY PROFILE

AMTEK ENGINEERING (PVT) LTD

No.28, Sulaiman Terrace, Colombo 05, Sri Lanka

Tel: 011 2502918 Fax: 011 2503392 Email: info@amtek.lk Web: www.amtek.lk

Exclusive local agents for :

About us

Amtek Engineering Pvt Ltd is a leading engineering solutions provider to the Construction industry of Sri Lanka for the past 15 years. Our extensive knowledge and experience in the Sri Lankan Construction Industry together with our network has put us in the forefront as a leading construction solutions provider.

We are the exclusive agents for;

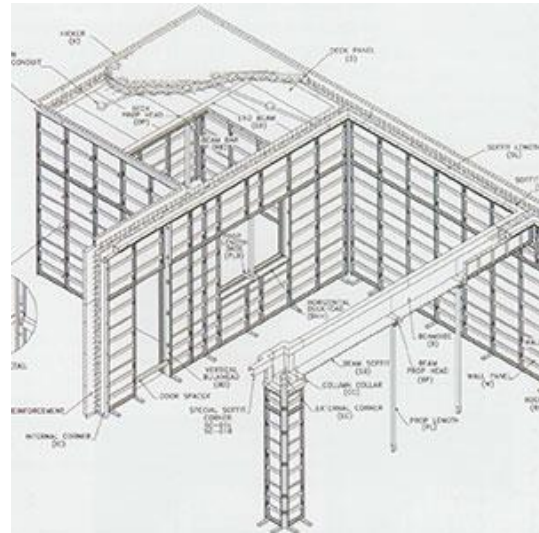

- **MFE Formwork Technology Sdn. Bhd - Malaysia**
World's No. 01 Aluminum Formwork Systems
- **Alsina Formwork Solutions - Spain**
Best Spanish low cost formwork systems
- **Halfen Moment Sdn. Bhd - Malaysia**
World's No. 01 Mechanical coupler provider
- **Cradle Runways - India**
Asia's No. 01 Façade Access Systems
- **Halfen Group – Germany/Malaysia**
Casting Channels/Lifting Gears & other connections
- **Hirun International – Italy/Taiwan**
Asia's No. 01 Post Tensioning System
- **PUK Group GmbH – Germany**
World's No. 01 Underfloor systems and cable tray systems
- **Anrin GmbH - Germany**
World's Best Drainage Systems
- **Astra Concrete Spacers - India**
Reinforced Concrete Spacers (Grade 60)

aluminium®
formwork
speed • quality • efficiency

MFE Formwork Technology is a revolutionary aluminum formwork construction system, which has been successfully used and developed over 20 years, for forming cast in place reinforced concrete building structures. Using this unique system, all walls, floor slabs, columns, beams, stairs, balconies, together with door and window openings are cast in place in a single site based operation. The resulting building structure is very strong, accurate in dimensions and tolerances, with a high quality of finished concrete surface and yet at the same time the MFE Formwork Technology is fast, adaptable and very cost effective.

MFE was first formed in 1991 and has worked in over 16 countries throughout the region and are currently working in India, Singapore, Dubai, Malaysia, Hong

Kong, Abu Dhabi, Thailand, Romania, Oman, Sri Lanka, Egypt and Libya. MFE has offices in Malaysia, India and Dubai. In Sri Lanka, We have supplied MFE Formwork for more than 10 projects and all the leading contractors/developers in Sri Lanka have used MFE Aluminium System Formwork for their projects.

Alsina

ENCOFRADOS - FORMWORK

Alsina Formwork is the biggest provider and manufacturer of formwork and scaffolding systems in the world. They continue to grow through the large-scale expansion of the production facilities at the main production plant in Barcelona, Spain. Alsina has set the course for the future. Large, world-wide combined numbers of units lead to favourable manufacturing costs and reliable quality due to a high level of automation.

Efficient production processes, strict checks carried out by official institutes along with the technical expertise of the best-trained workforce leads to high quality standards of Alsina steel, wood and aluminium system equipment.

With its technical expertise based on decades of experience, Alsina is your competent partner regarding choice, planning and supply of plywood and formwork systems including all details such as surface structure, edges, joints and ties.

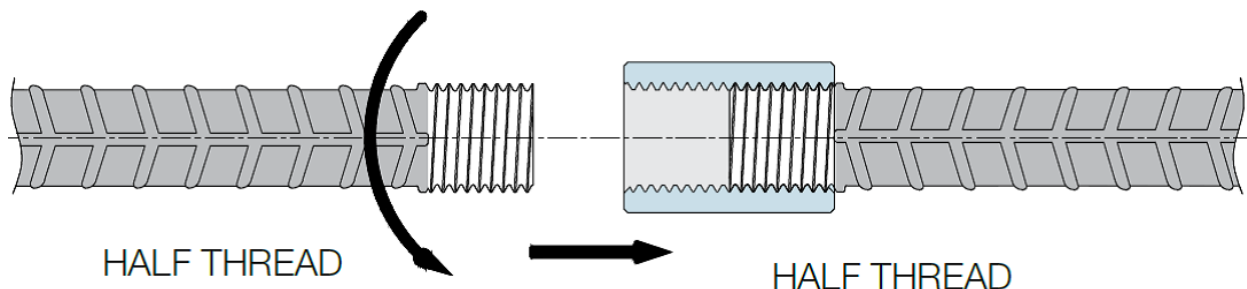

Halfen-Moment Group of companies started its business in Malaysia, supplying mechanical couplers to the building sites by as a cost effective alternative for conventional splicing. Today the MOMENT™ coupler is a well established brand in the market . The successful cooperation with our customers motivates us to continuously extend our product offering to more reinforcement and construction accessories.

The Halfen-Moment Group of companies is present internationally via its own entities, affiliate companies and committed distributors.

With the headquarters in Malaysia, which serves as the central hub, and being supported by its subsidiaries in Singapore, Philippines and India, we have positioned ourselves as a leading building products player with an established and extensive network throughout Asia and Europe.

HALFEN Group: With over 1,100 employees in 15 countries and more than 20,000 products HALFEN is one of the most successful concrete anchoring, façade fixing systems suppliers in the world. We offer our customers the highest quality products for building pre-cast concrete elements, commercial and residential construction, as well as civil engineering and for transport and infrastructure buildings. Our brands including "HALFEN", "DEHA", "DEMU" and "FRIMEDA" are among the market leaders. We want to maintain this position and grow it internationally.

Since the company was founded in 1929, our aim has been to provide bespoke, innovative and cost-effective solutions. We do this with passion and competence, along with the highest levels in technology, quality and safety. HALFEN innovations have been, and continue to be revolutionary for the whole industry. In the future too, we want to play a part in shaping progress. That is why we invest in research and development.

The high demands we set ourselves are also reflected in our relationships with employees, customers and suppliers: our dealings at all levels are characterised by trust, respect and reliability. We are looking for long-term international growth, and we will only achieve that by consistent cost management, professional operation and not least by confirming the trust placed in us and our products.

Hirun International Co.Ltd is a specialized company that operates In the field of civil engineering structures to identify the best technical solution supporting structural and architectural designers.

The main focus of Hirun International Co.Ltd. are the design, supply and technical assistance referred to several technologies like:

- ✚ Post tensioning systems
- ✚ Seismic devices
- ✚ Structural bearings
- ✚ Expansion joint

Hirun International Co.Ltd. is cooperating with its clients for the construction of structures in many countries around the world.

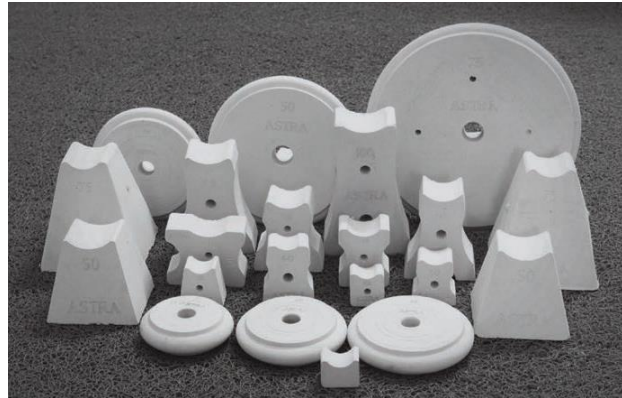

The Post tensioning system of HIRUN INTERNATIONAL Co Ltd is including components suitable for building (flat anchoring system), bridges (Multi-Strand anchoring system) and other structure type like dams or tanks including LNG tanks.

ASTRA Concrete Products is the pioneer in introducing concrete spacers (cover blocks).

Over the years ASTRA has become benchmark of high quality in fibre concrete spacers. With multiple tests conducted at reputed domestic and international test labs, ASTRA spacers have been approved and used in various prestigious projects.

Astra Concrete Spacers are made under strict quality control with compressive strength not less than 60 MPa. Astra Concrete Spacers do not deform in heat, cold or under weight. Astra Spacers have a low permeability; tests on our spacers also indicate a low water and chloride ion penetration

ASTRA spacers are used in hundreds of projects in New Zealand, Japan, Vietnam, Sri Lanka, Kuwait, Qatar, U.A.E., India, Saudi Arabia and Malta.

We are an ISO 9001:2008 Certified Company
